

Sugeshan Naidoo

Profile

Armed with a robust foundation in Computer Science, I bring to the table a diverse arsenal of technical proficiencies, spanning across various programming languages and software development methodologies. My communication skills are excellent, both verbal and written, ensuring seamless collaboration and effective information dissemination. I am adept at managing my time efficiently and can thrive in both independent and team-oriented environments. In addition to my technical skills, I understand the importance of adaptability, especially in the rapidly evolving field of technology. I am open to new challenges and eager to learn from real-world experiences.

I am passionate about the transformative potential of blockchain technology in reshaping social interactions and revolutionizing finance, bringing forth a new era of transparency and security. My proactive approach and determination to achieve excellence are qualities that I believe will serve me well in any professional endeavour. With a thirst for knowledge and an unwavering commitment to personal and professional growth, I am excited to dive headfirst into a fulfilling career in computer science, where I can apply my academic learnings and sharpen my skills whilst effectively contributing towards the growth of the organization.

Education

Bachelor of Science, Richfield Graduate Institute of Technology, Durban, South Africa

JANUARY 2020 — PRESENT

FIRST YEAR MODULES:

- Information systems (Passed with Distinction)
- Web technology (Passed with Distinction)
- Mathematics (Passed with Distinction)
- Programming
- Networks

SECOND YEAR MODULES

- Cloud computing
- Information systems (Passed with Distinction)
- Programming
- Database systems
- Internet programming
- Big data & IOT
- Machine learning

THIRD YEAR MODULES

(in progress):

- Artificial intelligence
- Programming 731
- Software engineering
- Cybersecurity
- Programming 741
- Human computer interaction
- Operating systems
- Mobile App development
